

Mississippi Agricultural and Forestry Experiment Station

Gate Access & Key Requests

This form is required for access to MAFES North Farm, South Farm, Dairy and Black Belt facilities. The requestor should complete this form and submit for appropriate signatures. A charge account must be provided in the event keys must be ordered or other costs are incurred to complete this request. If you do not know the related account number, please contact the department's Budget Manager or Accounts Supervisor. You are responsible for keys that are assigned to you. By requesting keys and/or gate access, you agree to keep the key and/or pin assigned to you private, secure, and for use only by you for official MAFES/MSU business. Lost keys must be reported to Research Support immediately. Re-keying costs could be incurred in the case of lost keys. I understand that it is the department's responsibility to retrieve keys from terminated employees. Please notify Research Support (662-325-8472) with questions or to terminate an employee.
