Pentas lanceolata, known commonly as “Egyptian star cluster” or simply “star cluster”, puts on a cosmic display with a star-studded assortment of bright colors during the hottest months of the year. Varieties in the Graffiti® series (from Benary) have been reliable performers in our gardens year after year. The new Lucky Star™ series from PanAmerican Seed is also burning bright with its range of colors. When you’re on Planet Earth, visit our Trial Gardens to see all the colors under the sun in these two stellar series.
